Please describe how you use this service provider (e.g., for what services, for what members of the family, how often, since when, etc.).

I have a son in the toddler class and a son in one of the 3's classes. Both attended 2 days in the fall, and just loved it, so we have increased them to 3 days for the spring.

Please tell MomsOutLoud how satisfied you are with this company or facility overall.

This program is absolutely FABULOUS! I had only heard positive things about it before enrolling, and now only have positive things to say about it myself.

Please tell MomsOutLoud what thing you think this company does well.

The people who work there truly love the children and want to be there. Most of the staff has been at the school for many years and they all have many years of experience elsewhere as well. They love on my kids all day long and plan unique, engaging, fun and educational activities. I adore having my kids tell me with enormous enthusiasm, what they did at school each day. Also, they let you choose the days your children attend school which is a huge benefit!

If there are any areas in which this service provider should improve, please suggest an improvement.

Please tell MomsOutLoud what ages you think this service(s) is most appropriate for. Please check all that apply.

Please describe how you use this service provider (e.g., for what services, for what members of the family, how often, since when, etc.).

My 3-1/2 year old daughter has been attending PMLC KDO since she was 2; first in the toddler class and now in preschool for 3's.

Please tell MomsOutLoud how satisfied you are with this company or facility overall.

I LOVE PMLC KDO! Are there bigger caps available? As soon as my youngest daughter (now four months old) is old enough to attend, she'll be heading to school here as well. The curriculum is diverse. My three year old learned about Chinese new year today and is already counting and speaking in Spanish. She attends chapel here, too, which further encourages our faith based teachings at home. Last summer in "camp," the kids learned science experiments that my daughter still remembers. They welcomed a Japanese girl who didn't speak English into school last Fall and have been instrumental in her adapting to American customs. I could go on with so many praises for this group.

Please tell MomsOutLoud what thing you think this company does well.

Every member of the staff gets to know each child by name - from welcoming them into the building in the mornings to greeting them in the hallways and playground. It feels like they've taken a personal and enthusiastic interest in my daughter. They know how to take delight in all children while teaching them fun lessons and important skills, and I love that!
